AWS Contact Center Intelligence (CCI) Solutions

ADD AI/ML TO ANY ON-PREMISES OR CLOUD CONTACT CENTER

CCI solutions use a combination of AWS AI services that address 3 main use cases for any contact center – with no ML expertise required.

Supported Contact Center Platforms

AVAYA

GENESYS™

:talkdesk®

8x8

... and many more!

AWS CCI solutions use cases

ADDRESSING 3 PRIMARY JOBS WITH AI AND AUTOMATION

Self-service virtual agents

Use of automatic speech recognition and NLU:

- 24/7/365 access to answers
- Offload repetitive queries to virtual agents, reduce employee frustration
- Reduce call transfers with intelligent routing

Real-time call analytics & agent assist

Use real-time transcription, NLP and translation:

- Automate real-time note-taking, audio translation, and summarization tasks.
- Provide turn-by-turn translations, insights and sentiment analysis
- Resolve calls faster with intelligent search and next best answer prompts

Post-call analytics

Use offline audio streaming transcription and NLP:

- Identify actionable business insights to drive revenue
- Analyze 100% conversations to assess agent performance and compliance
- Improve employee retention, reduce operational costs

ABOUT US

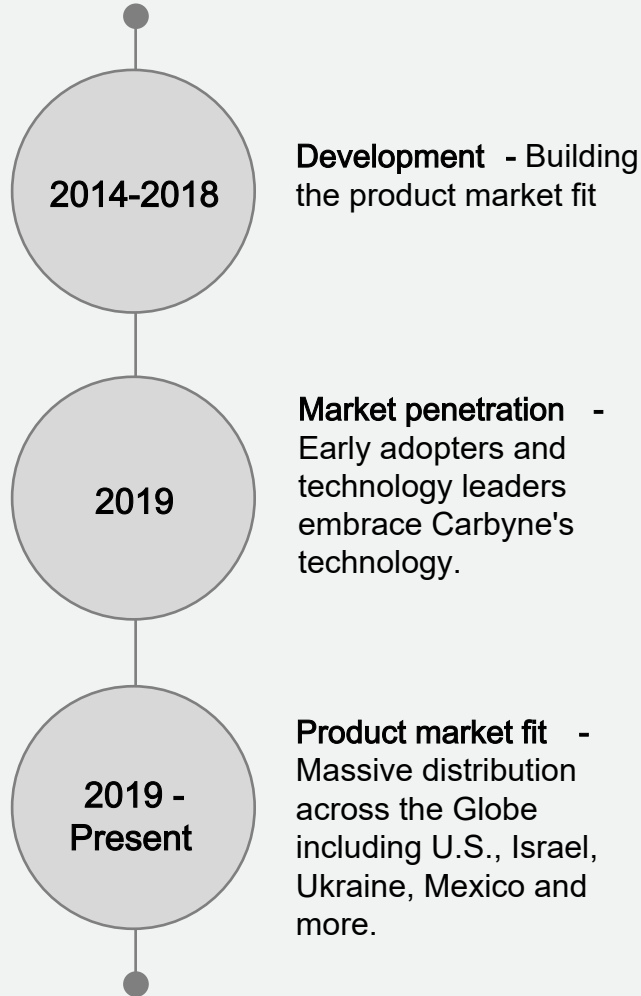

Founded in 2014 by:

- Amir Elichai - CEO and Founder
- Alex Dizengof - CTO and co-Founder
- Yony Yatsun - R&D Team Leader and co-Founder

Story:

Amir got robbed on a beach in Tel Aviv. Following a frustrating experience, when the police couldn't find his accurate location, Amir thought to himself - "How does Uber know my location but the police don't?" The idea for Carbyne was born.

CARBYNE TODAY:

Raised over **\$128M**

Over **180 employees** around the world, supporting customers including U.S., LATAM, Israel, Ukraine and more.

Over **150M** people served

Serving **100+ customers** with over **\$250k savings** per average customer.

Challenges in Emergency Dispatch: Language Barriers

40M

Annual
Language Line Calls

67M

Americans don't speak
English at home

61%

Of non-native English
speakers speak Spanish

60M+

Foreign visitors to the
US annually

Introducing **Carbyne Live Audio Translation**

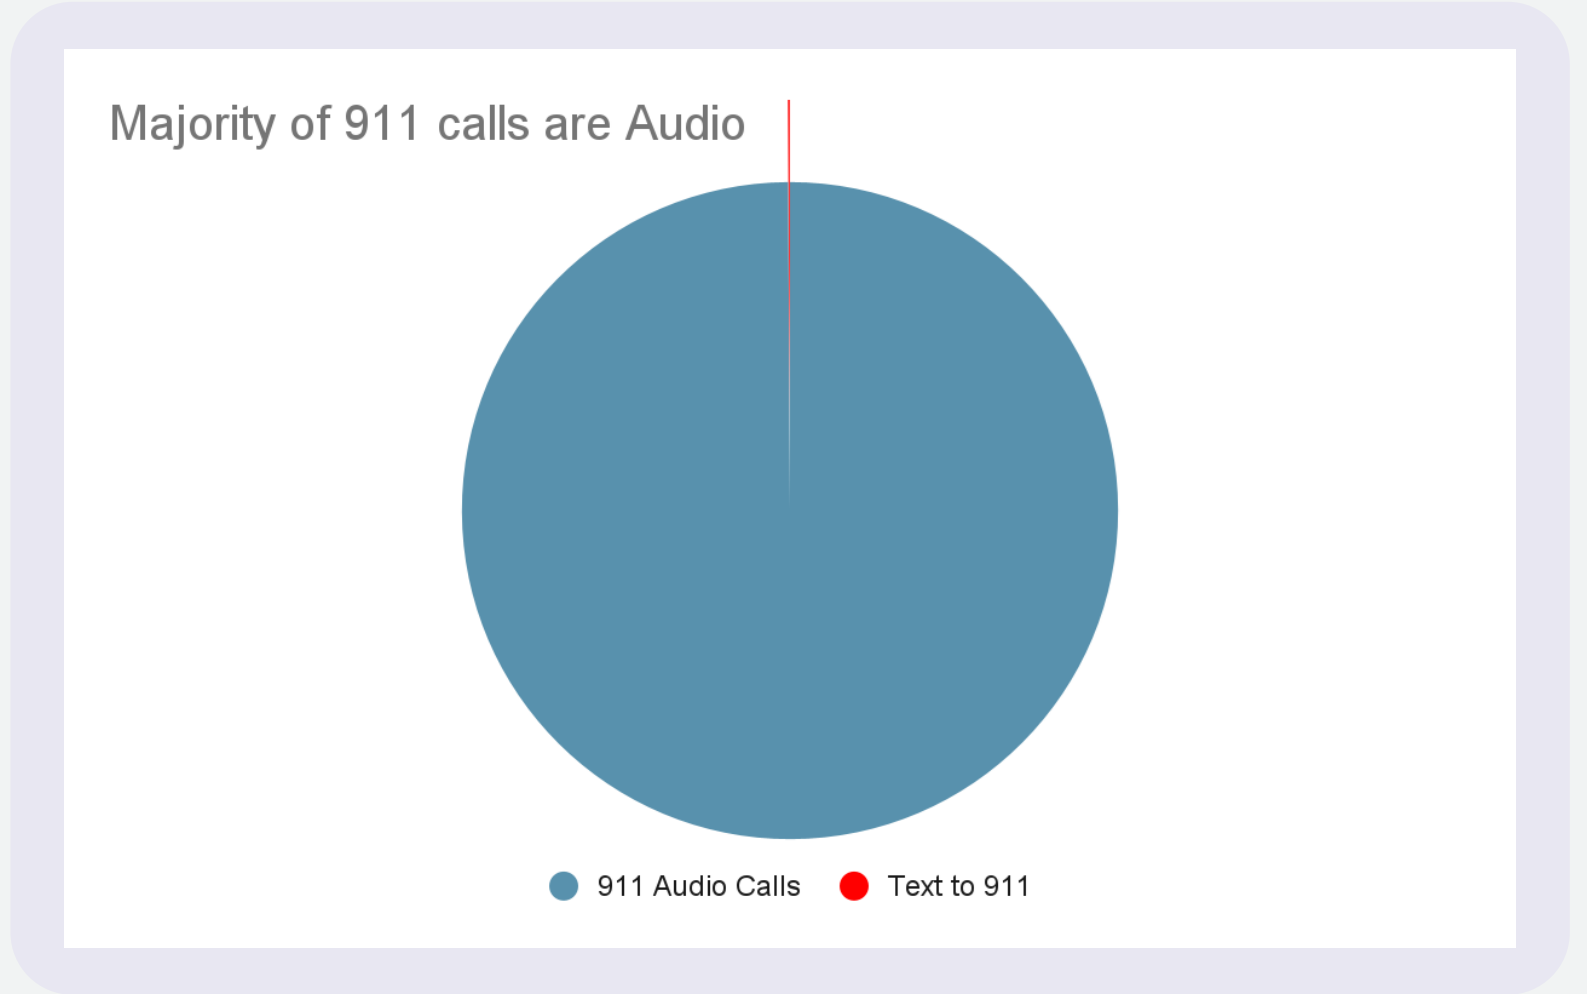

In an emergency situation every second counts.

U.S. regulators estimate that reducing emergency response times by just one minute could save **up to 10,000 lives** each year. Several thousand more could be saved with further reductions to emergency response times.

Lot **More!**

How Carbyne Live Audio Translation Works

Why AWS – Amazon Transcribe & Amazon Translate

High accuracy transcriptions

Real-time translation

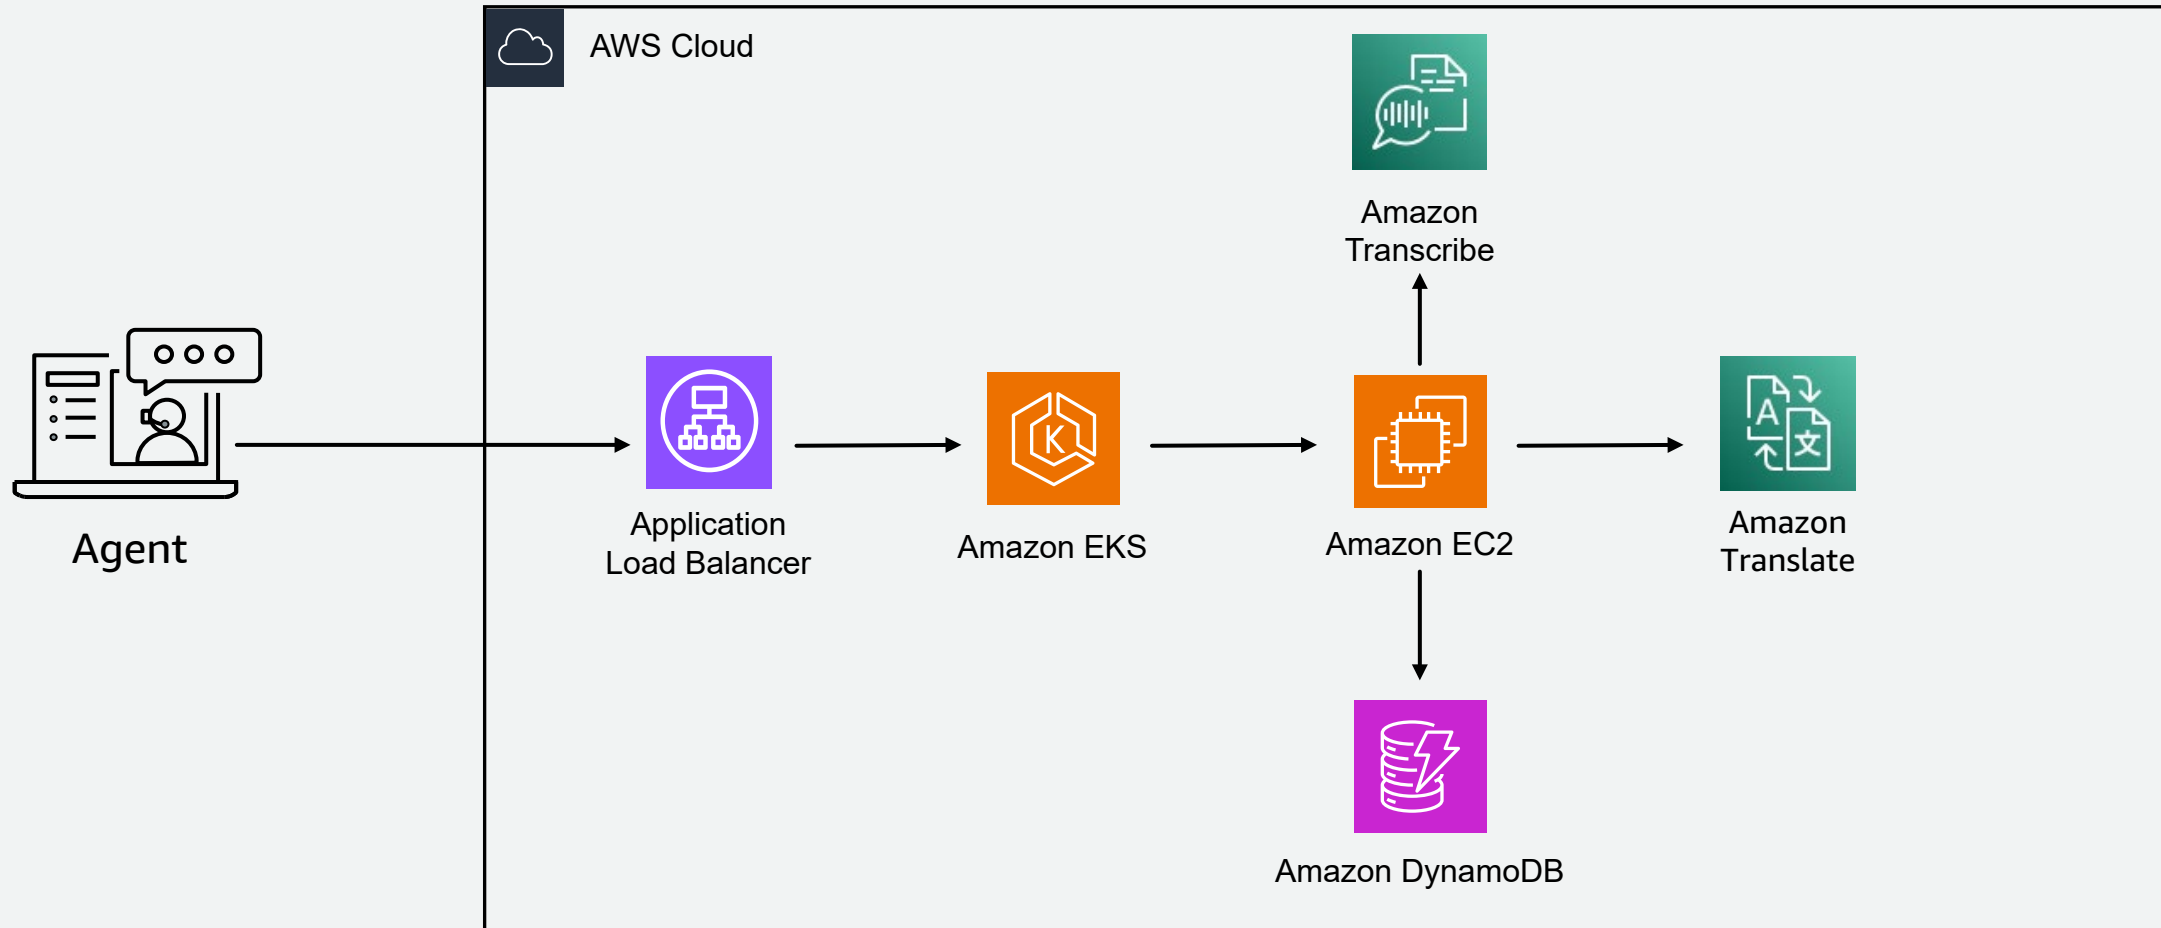

Integration with existing systems

Excellent team collaboration

Carbyne Live Audio Translation using AWS AI Services

Carbyne – Business outcomes achieved with AWS

- **Easy integration** into any call handling system
- Handle **240+ Mn calls** annually

Build a robust workflow

- Provide emergency responders with **more critical information faster**
- Support **diverse** caller base

Improve User Experience

- Average **savings of \$60K/year** per customer
- **Reduce** translation time and transcription **errors**
- **Expand** the **number of cases** agents can support

Improve Operational Efficiency

Vision: Roadmap for AWS-Carbyne Partnership

2-way natural language,
multi-lingual
conversations using AI

Support more languages:
Grow support from 14 to 70
languages

Next Steps

AWS Contact Center Intelligence (CCI) Solutions

HOW TO GET STARTED

DISCOVERY WORKSHOP to PROOF OF CONCEPT

- Identify the use case
- Determine KPIs
- Do a workshop/
Immersion day
- Start a POC

WHO CAN HELP

- Work with AWS
experts
- AWS ProServe

AWS CCI PARTNERS

- Contact center platforms
- Consulting partners
- Independent software
vendors (ISV)
