

THURSDAY, MAY 4, 2023							
8:30 - 9:30	Registration + Expo (All day) Level 5, Sands Grand Ballroom						
9:30 - 10:45	AWS Summit ASEAN Keynote						
10:45 - 11:30	Morning Break						Workshops
	Breakout 1 - Financial Services	Breakout 2 - Insights	Breakout 3 - Security & Compliance	Breakout 4 - Modernise	Breakout 5 - Build On.AWS	Breakout 6 - Public Sector	11:00 - 12:30
11:30 - 12:00	AI-ming the future: Harnessing AI/ML for FIs <b>Level 200</b>	Commanding the data seas: Unleashing the power of analytics <b>Level 100</b>	How Traveloka protects their business from DDoS with AWS <b>Level 300</b>	Set up Foundations on AWS for successful cloud transformation <b>Level 200</b>	A developer's guide to modern application development <b>Level 200</b>	Modernise for Public Good <b>Level 200</b>	AWS GameDay: F1 League - Session 1 <b>Level 200</b>
12:00 - 12:30	AWS Partner Session	Secure route to the Cloud: Migrating your applications & data <b>Level 200</b>	Cybersecurity Transformation - Better Together with AWS <b>Level 200</b>	Realise your strategic cloud vision by reducing complexity <b>Level 100</b>	Observability for Serverless Workloads <b>Level 200</b>	Reimagining Modern Businesses <b>Level 100</b>	
12:30 - 13:30	Lunch						
13:30 - 14:00	Legacy to lightning: Streamlining FSI migrations <b>Level 300</b>	Unlock actionable insights and monetise data on AWS <b>Level 200</b>	Defence in depth & Zero Trust Network Access for your network <b>Level 300</b>	Improve price-performance with AWS Graviton-based instances <b>Level 200</b>	Accelerate modern application development with Serverless <b>Level 200</b>	Sustaining public sector innovation with innovation sandbox <b>Level 100</b>	13:30 - 15:30  AWS DeepRacer: Get hands-on with machine learning <b>Level 200</b>
14:00 - 14:30	Digital asset management: Bridging 2.0 and 3.0 <b>Level 200</b>	Achieve quality insights in a modern data ecosystem with AWS <b>Level 300</b>	Building a cloud native Landing Zone on AWS <b>Level 300</b>	Bring retail operations into the 21st Century <b>Level 100</b>	Composing integration patterns in serverless microservices <b>Level 300</b>	AI-powered automated reply system for agency service queries <b>Level 200</b>	
14:30 - 15:00	A new approach to cloud security for developers & security teams <b>Level 200</b>	Build real-time analytics easily with MongoDB Atlas <b>Level 100</b>	Prevent breaches with CrowdStrike CWP Complete <b>Level 100</b>	Better together: AWS infrastructure and feature management <b>Level 200</b>	Secure deployments with intelligent automation for DevSecOps <b>Level 200</b>	Unlocking innovation from 24x7 Operations to 9x5 Innovation <b>Level 200</b>	
15:00 - 15:30	Payments solutions of Tomorrow <b>Level 100</b>	Executive's guide to developing ML strategy: Challenges and solutions <b>Level 100</b>	Automate security analysis and code reviews with ML <b>Level 300</b>	Improve performance & security of Enterprise Workloads on AWS <b>Level 300</b>	Protect your applications by enabling DevSecOps using AWS <b>Level 300</b>	Rethinking Contact Centre operations in the cloud <b>Level 200</b>	
15:30 - 16:00	Afternoon Break						15:30 - 17:00
16:00 - 16:30	Digital banking for all: Millennials and underbanked alike <b>Level 100</b>	Build an enterprise grade AI/ML platform with Amazon Sagemaker <b>Level 300</b>	How Bank Islam simplified their compliance journey <b>Level 100</b>	Strangler pattern: From monolithic architecture to microservices <b>Level 300</b>	Fast track your Kubernetes adoption with Amazon EKS Blueprints <b>Level 300</b>	Building smart cities: AWS Hybrid Edge, IoT & data services <b>Level 200</b>	AWS GameDay: F1 League - Session 2 <b>Level 200</b>
16:30 - 17:00		Accelerate ML model deployments: SageMaker real-time endpoints <b>Level 300</b>		Establishing a data perimeter on AWS <b>Level 300</b>	How to migrate, modernise and optimise using the AWS MAP <b>Level 300</b>		
	Revolutionise the core: Breaking free from brick and mortar <b>Level 300</b>	Transform your business with Generative AI <b>Level 200</b>			How to handle your data in modern microservices architecture <b>Level 100</b>	Practising chaos engineering for resiliency in Kubernetes <b>Level 300</b>	
Timings and sessions subject to change
