

# Accelerate your career onboarding

---

---

## AWS Tech U offers an accelerated approach to career onboarding for several technical roles within AWS

AWS Tech U is a 48-week residency program for a select group of new AWS employees. Residents have the opportunity to participate in **project-based learning**, **creative real-world problem solving**, and **on-the-job training**. Supported and supervised by AWS experts, this residency program offers these new AWS professionals time and space to develop technical expertise in AWS cloud computing. They are also taught the soft skills required to launch a successful career.

AWS Tech U graduates are prepared to serve as **solutions architects, technical trainers, and professional services consultants** within AWS.

AWS Tech U is offered globally in Seattle, Herndon, Toronto, São Paulo, Madrid, London, Tokyo, Seoul, and Singapore.

---

## Program benefits include:

- **Paid on-the-job training** as a full-time employee
- **Project-based learning** and professional development
- **Mentorship and support** from AWS experts
- **Real-world problem solving**
