

		WEDNESDAY, 10 APRIL 2024													
AEST	Main Stage Keynote + AWS Super Sessions (Breakouts) ICC Sydney Theatre	Stage #1 Breakout Exhibition	Stage #2 Breakout Exhibition	Stage #3 Breakout Exhibition	Stage #4 Breakout Exhibition	Stage #5 Breakout Exhibition	Stage #6 Breakout Exhibition	Stage #7 Breakout Exhibition	Stage #8 Breakout Exhibition	Workshop A Exhibition	Workshop B Exhibition	AWS GameDay Exhibition	Lightning Lounge A Exhibition	Lightning Lounge B Exhibition	
8:00-18:00		Registration - Exhibition L2 foyer Expo live all day												How to choose a pathway for taking AWS certification exams L200 (8:00 - 8:15) Drag and drop your next deployment L100 (8:20 - 8:35)	
9:00-10:15	Builders Day Keynote														
	Morning Tea (10:15-11:00)												Elastic Al native cyber operations with Elastic Security L100 (10:20 - 10:35) Stripe From code to cash in minutes - accelerating revenue growth through payments L100	Apptio Why FinOps? A guide to this emerging framework and practice L100 (10:20 - 10:35) Neo4j Power Amazon Bedrock applications with Neo4j Knowledge Graph L200 (10:40 - 10:55)	
11:00-11:30		Palo Alto	Datadog	Red Hat	New Relic	PwC	Intel	Accenture	PagerDuty Building IT operational resilience through AIOps and automation L100				(10:40 - 10:55)	(10:40 - 10:55)	
11:40-12:10	Accelerate innovation with	Critical infrastructure security and resilience with Department of Home Affairs L200	Resilient architectures at scale: Real-world use cases from Amazon.com	Accelerate development with AI powered coding companion L300	Build self-healing code with generative AI on AWS L400	Reinventing with generative AI on AWS L100	Getting started with AI app development L200	Build a data foundation to fuel generative AI L200	Struggling with data swamps? Simplify and scale metadata ingestion L300	Build and evaluate state-of-the-art machine learning models without writing code L300	Amazon CodeWhisperer Challenge L300 (11:00-12:30)	AWS GameDay Challenge 1 (11:00-12:30)			
12:20-12:50	AWS data and generative AI L200 (11:45 - 12:30)	Streamline security investigations with Amazon Security Lake L300	How Slack built resilient and efficient architecture to support real-time messaging L300	Mastering serverless: A day in the life of a developer L300	Navigating security in modern app development L200	Bring the power of generative AI to your employees with Amazon Q L200	Redefine the relationship between drivers and vehicles with generative AI L300	A pragmatic approach to data governance on AWS L300	Easily and securely prepare, share, and query data L300	(11:00 - 12:30)					
Lunch (12:50-13:40)													Domo The fast and the curious: influencing behaviour with insights L100 (12:50 - 13:05) LaunchDarkly How to optimise experimentation: don't ship errors L100	Fastly Building on the edge with Fastly (12:50 - 13:05) Boomi Intelligent integration: Unleashing AI's potential L100 (13:10 - 13:25)	
													(13:10 - 13:25) Confluent Confluent Cloud for Apache Flink® L200 (13:30 - 13:45)	Okta Your roadmap to modernise customer identity for business growth - a Fireside chat with CreditorWatch L200 (13:30 - 13:45))	
13:40-14:10		Advanced Micro Devices	Buildkite Patterns for high performance software delivery L200	Wiz Future-proofing cloud security with CNAPP: A new operating model L200	HCLTech	Snowflake	Splunk Splunk ML/AI - What's now, what's next! L200	MongoDB	Dynatrace Accelerate AWS migration & modernisation with AI observability L200						
14:20-14:50	Build without limits: The next-generation developer experience at AWS L200 (14:25 - 15:10)	Essential tips for protecting critical identities L200	Build your distributed application the AWS Well-Architected way L300	SaaS meets AI/ML and generative AI: Multi-tenant patterns and strategies L300	Deploy with safety and speed through platform engineering L300	Using generative AI securely, safely and responsibility L300	Multilayered approach to safeguarding generative AI L200	Improve generative AI experiences with vector search using Amazon OpenSearch Service L400	Set up a zero-ETL-based analytics architecture for your organisations L300	Serverless Developer Experience workshop L400 (13:40-15:10)	Build an automated video monitoring system with AWS IoT and AI/ML L300 (13:40-15:10)	AWS GameDay Challenge 2 (13:40-15:10)	Streamlined deployment to Amazon EKS with Amazon CodeCatalyst L200 (14:25 - 14:40) Testing Serverless Applications in AWS L300 (14:45 - 15:00)	MLOps foundations: Setting up your MLOps infrastructure from day one L200 (14:25 - 14:40) Supercharge your engineering with Amazon CodeWhisperer L300 (14:45 - 15:00)	
	Afternoon Tea 'rolling' (15:00-16:10)														
15:00-15:30		Network cost optimisation on AWS L400	Minimise downtime and maximise reliability: Strategies for safe deployments L400	Essential security practices for your software development lifecycle L400	Build scalable custom authorisation for applications in 30 minutes L300	Mixed RAG: Routing user prompts across multiple content domains L400	Building smart applications using large language models L300	Building interoperability and data collaboration workloads with AWS L300	Foxtel's journey: Building a data sharing architecture on Redshift L300				Generative AI prototyping: Experimentation for all organisations L200 (15:10 - 15:25)	How Vector Databases are powering generative AI and similarity search L300 (15:10 - 15:25)	
15:40-16:10		Leverage observability to simplify complex deployments with coreplus L400	Transition to cost awareness: Canva's journey with FinOps practices L200	Combine messaging services for workload resilience and ordering L300	Platform engineering with Amazon EKS L300	Defence in depth: Securely building a multi-tenant generative AI service	Implementing DevOps for machine learning across global teams at Rio Tinto L300	Reduce downtime and optimise costs through data pipeline observability L300	Proactively addressing customer concern in real-time with generative AI and Kafka L400			AWS GameDay Challenge 3 (15:40-17:10)	Harness Amazon Bedrock for project excellence L200 (15:30 - 15:45)	A StartUp guide to evolving a modern data platform L300 (15:30 - 15:45)	
16:20-16:50		Strengthen your security posture with AWS L200	Harness the power of AWS to build game-changing applications L100	SaaS DevOps deep dive: Automating multi-tenant deployments L400	Supercharge your development with AWS generative AI developer tools L300	Best practices for querying vector data for generative AI apps L400	Build customised business solutions using foundation models	Selecting the best large-scale transactional data lake format L400	Power medical imaging in the cloud with AWS HealthImaging L300			(15:40-17:10)			
17:00-18:00							Ne	etworking drinks
