

## DAY 1 | TUESDAY, 29 JUNE 2021

OPENING KEYNOTE							
TRACK	AI/ML	BIG DATA & ANALYTICS	MODERNIZATION & INNOVATION	APPLICATION & MODERNIZATION	DATABASE	DEVOPS	SECURITY
9:45 - 11:30 [GMT +5:30]							
11:30 - 12:05 [GMT +5:30]	Maximizing your addressable market with AI/ML on AWS [Level 200]	An introduction to analytics on AWS [Level 100]	Enterprise migration to AWS [Level 100]	Modernize your applications by leveraging AWS containers and serverless services [Level 200]	Application modernization with AWS purpose-built databases [Level 100]	Choosing the right modern deployment strategy [Level 300]	How are we evolving security [Level 200]
12:05 - 12:40 [GMT +5:30]	Unleash price-performance advantage for AI on Intel [Intel]	Powering real-time decisions with the Snowflake Data Cloud [Snowflake]	5 ways to speed up Dev and Deployments with OpenShift on AWS [Red Hat]	Explore Partner Solutions	Explore Partner Solutions	Influencing DevOps without Authority: How "DevOps engineer" can advance real DevOps [Jfrog]	Mistakes were made, lessons were learnt [Trend Micro]
12:40 - 13:15 [GMT +5:30]	Enhancing visibility into your organization's knowledge base to increase employee productivity [Level 200]	What's new with Amazon Redshift? [Level 200]	Build a business case for cloud-based transformation [Level 200]	Running your applications on Kubernetes across boundaries using Amazon EKS [Level 400]	Edge over relational: An introduction to graph databases and Amazon Neptune [Level 100]	Building a GitOps pipeline with Amazon EKS [Level 200]	Regulation, compliance & audit [Level 200]
13:15 - 13:50 [GMT +5:30]	PARTNER LIVE DEMOS						
13:50 - 14:25 [GMT +5:30]	Transform your contact center from a cost center into a profit center [Level 200]	Run big data analytics faster at lower cost with Amazon EMR [Level 200]	Build your cloud migration roadmap on AWS [Level 200]	Serverless architectural patterns and best practices in modern application development [Level 200]	Introduction to Amazon NoSQL managed databases [Level 100]	Learn about AWS Proton: Automated management for container and serverless deployments [Level 200]	Ten easy and effective ways to secure your AWS environment [Level 200]
14:25 - 15:00 [GMT +5:30]	Intelligent document processing: Enhance speed and efficiency by tapping into ML [Level 200]	MakeMyTrip: Leveraging Amazon Athena Federated Query to break data silos [Level 300]	Setting up for success on the cloud (people, processes, and tools) [Level 200]	Using service meshes in your application modernization journey [Level 200]	Design for success with Amazon ElastiCache best practices [Level 200]	Monitoring deployment pipelines and application health using AWS Observability services [Level 300]	Security automation [Level 200]
15:00 - 15:35 [GMT +5:30]	Dramatically reduce time and cost of analyzing rich media assets [Level 200]	BigBasket: From clicks to insights [Level 200]	Getting started with migrating to AWS [Level 300]	Choose the right messaging service using proven integration patterns for modern applications [Level 300]	Beyond AWS Database Migration Service: Programs and partners to ace your migration [Level 100]	AWS Fault Injection Simulator: Fully managed chaos engineering service [Level 200]	Next generation SOC [Level 200]
15:35 - 16:10 [GMT +5:30]	Proactively detect anomalies in operational and business data to reduce investigation time [Level 200]	Amplifying analytics for SAP [Level 200]	Running Microsoft workloads on AWS [Level 200]	Security best practices for modern applications running on containers [Level 200]	A look at Aurora Features [Level 300]	Automate anything with AWS Systems Manager [Level 200]	Web Application Firewall & managed DDoS [Level 200]

## DAY 2 | WEDNESDAY, 30 JUNE 2021

TECHNICAL OPENING KEYNOTE								
TRACK	AI/ML	BIG DATA & ANALYTICS	MODERNIZATION & INNOVATION	FINANCIAL SERVICES	INTERNET OF THINGS	DEVELOPER ACCELERATION	DIGITAL INDIA	MODERN DIGITAL WORKPLACE
10:00 - 11:30 [GMT +5:30]								
11:30 - 12:05 [GMT +5:30]	Solving business problems with AI/ML [Level 200]	Harnessing the power of data [Level 100]	Modernising and innovating on AWS [Level 200]	Financial Services - Navigating change while facing forward [Level 200]	Connect today, transform tomorrow with AWS IoT [Level 100]	Introducing AWS DevX: Working together to build tomorrow [Level 100]	Scaling businesses on the backbone of Digital India [Level 200]	Reimagine the digital workplace using AWS [Level 100]
12:05 - 12:40 [GMT +5:30]	Benchmark your cloud maturity: A best practices framework [VMware]	End-to-end Observability with OpenTelemetry [Splunk]	Explore Partner Solutions	Fly high in 2021 - Simplify Hybrid Cloud adoption [Cloud4e]	Adding customer identity and access management from Auth0 to your AWS hosted application [Auth0]	New normal or not normal? Observability that will change the way you work [Dynatrace]	Economics of the cloud Data Protection [DELL]	Bring the power of IBM Watson to AWS with IBM Cloud Pak for Data [IBM]
12:40 - 13:15 [GMT +5:30]	Amazon SageMaker deep dive: First fully integrated development environment for machine learning [Level 300]	Delhiery: Data mesh implementation ingesting terabytes of data [Level 300]	Building hybrid cloud on AWS [Level 200]	Reimagining the customer experience leveraging better insights with AI/ML [Level 300]	Connected Operations/Smart Factory: Enabling operational excellence with AWS IoT [Level 200]	Accelerate modern serverless application development with AWS Amplify [Level 200]	Enabling efficient and responsive healthcare for all [Level 100]	Move your desktops and applications to AWS with end-user computing [Level 200]
13:15 - 13:50 [GMT +5:30]	PARTNER LIVE DEMOS							
13:50 - 14:25 [GMT +5:30]	Building an automated digital KYC with AWS AI/ML services [Level 300]	BI at hyperscale: Build and scale dashboards with Amazon QuickSight [Level 300]	Transforming your business, with SAP on AWS [Level 200]	It's time for modernizing your core systems: Are you ready? [Level 300]	Deliver innovative customer experiences and explore new revenue streams with connected things [Level 200]	Coordinating distributed services using AWS Step function [Level 300]	Accelerating uninterrupted education at the last mile [Level 200]	Building an immersive Chat experience with Amazon Connect Chat [Level 300]
14:25 - 15:00 [GMT +5:30]	Deep learning Inference on AWS: Choosing the right type of hardware [Level 300]	Amazon managed streaming for Kafka [Level 300]	Degrees of modernization [Level 300]	Fortifying your enterprise and ensuring regulatory compliance: Welcome to the AWS cloud [Level 200]	Build low-latency applications with AWS IoT Edge services [Level 200]	Monolith to microservices with containers: Developer's log [Level 200]	Transforming Indian agriculture to become smarter, inclusive and more resilient [Level 200]	Transform your digital user engagement with Amazon Pinpoint [Level 300]
15:00 - 15:35 [GMT +5:30]	Machine learning for intelligent services in edge devices [Level 300]	Leveraging spot instances to optimize cost for large scale Amazon EMR clusters [Level 200]	Modernize your data warehouse [Level 300]	Driving enterprise transformation: Mechanisms and learnings [Level 200]	Build intelligent, camera-based security and monitoring solutions for connected homes and enterprises [Level 200]	AWS CDK: Develop, customize and share reusable constructs for AWS infrastructure [Level 300]	Building a social media app serving content requirements at India's scale [Level 300]	Create highly interactive experiences with Amazon Chime [Level 200]
15:35 - 16:10 [GMT +5:30]	Make your ML models go the extra mile [Level 300]	Re-thinking analytics architectures in the cloud [Level 200]	Pulling it all together: Leveraging cloud to drive business transformation [Level 200]	How Fintechs are changing the banking experience [Level 200]	Busting Myths with AWS IoT: Idea to launch with effective prototyping in less than 6 weeks [Level 300]	Supercharge your development workflow with AWS developer tools [Level 200]	BlackBuck: Digitizing one of the world's largest freight economies using AWS [Level 200]	AI driven employee identity verification [Level 300]

## EXPERIENTIAL AREA | 29 - 30 JUNE 2021

9:00 - 15:30 (GMT +5:30)

AWS DEEPRACER WORKSHOPS Available on-demand, 29 & 30 June	PUBLIC SECTOR FOR INNOVATION Available on-demand, 29 & 30 June			STARTUP CENTRAL Startup Talks, Startup Stories & More Available on-demand, 29 & 30 June		
Get rolling with Machine Learning on AWS DeepRacer [L200]	DIGITAL TRANSFORMATION	DIGITAL TRANSFORMATION	DIGITAL TRANSFORMATION	GETTING STARTED ON AWS		GETTING STARTED ON AWS
Shift your ML model into overdrive with AWS DeepRacer analysis tools [L300]	India and South Asia - Regional Welcome Message [L100]	Shaping a growth work culture with agile leadership [L200]	Foundations first: Cloud adoption and transformation [L200]	Growing and scaling with AWS startup programs [L100]	Converting challenges into opportunities leveraging AWS [L100]	
Replicate AWS DeepRacer architecture to master the track with SageMaker Notebooks [L300]	GOOD GOVERNANCE	GOOD GOVERNANCE	GOOD GOVERNANCE	AI/ML	AI/ML	AI/ML
	Reshaping how governments work: Digital Transformation [L200]	Using the cloud to build a smart cities vision with AWS [L200]	Using open data for sustainable agriculture [L200]	How BuddhiMed is leveraging AI in healthcare [L100]	Elevating seller and customer experience in e-commerce and retail: AML and research at Fynd [L100]	Trell - Fueling Growth using AI & ML on AWS [L100]
	TECH IN EDUCATION	TECH IN EDUCATION	TECH IN EDUCATION	DEVOPS	DEVOPS	FINANCIAL SERVICES
	Pivoting and scaling with AWS: SRM Institute of Science and Technology [L100]	Remote learning: Education in the Cloud [L200]	Securing student data in the age of virtual learning [L200]	Android DevOps: The future of device fleet management at scale on the Edge [L100]	Building a modern data platform to enable an agile data culture [L100]	AWS makes lending happen [L100]
	TECH IN EDUCATION	TECH IN EDUCATION	TECH IN EDUCATION	SECURITY COMPLIANCE AND IDENTITY	SECURITY COMPLIANCE AND IDENTITY	SECURITY COMPLIANCE AND IDENTITY
	Reinventing medical imaging with machine learning on AWS [L200]	ML & analytics addressing nationwide COVID-19 impact & recovery [L200]		AWS Fintech startups top 10 regulatory security & compliance concerns [L100]	Architecting for healthcare standards and compliance in India [L100]	Measuring your AWS SAFE score to predict breaches [L100]

### BUILDERS' ZONE | Technical Demos by AWS Experts

Available on-demand, 29 & 30 June

AI/ML	AI/ML	AI/ML	AI/ML	AI/ML
Build an intelligent marketing kiosk using AWS AI/ML services [L100]	Build an AI enabled workflow for a language agnostic feedback management system [L100]	Building AI enabled intelligent document processing using AWS ML services [L100]	Gully bot RAP battle of bots, powered by auto-lyrics generation AI models using Amazon SageMaker [L100]	Building serverless applications on AWS: The serverless LAMP stack [L100]
INDUSTRY SOLUTIONS	INDUSTRY SOLUTIONS	INDUSTRY SOLUTIONS	INDUSTRY SOLUTIONS	INDUSTRY SOLUTIONS
Smart interview bot using deep learning [L100]	Multilingual omnichannel contact center [L100]	Intelligent digital twin for physical industrial equipment [L100]	Support helper: Intelligent search with Amazon Kendra [L100]	
AWS REINVENT 2020	AWS REINVENT 2020	WELLBEING	WELLBEING	WELLBEING
Cicerone: Redefine biking using IoT and AI [L100]	Clash of the Soccer Bots [L100]	Build a plant disease detector and recommendation system using Amazon Rekognition service [L100]	Intelligent COVID-19 safety analyser for public places [L100]	Building an interactive live video streaming app using Amazon IVS [L100]

### Level 100

#### Introductory

Sessions are focused on providing an overview of AWS services and features, with the assumption that attendees are new to the topic.

### Level 200

#### Intermediate

Sessions are focused on providing best practices, details of service features and demos with the assumption that attendees have introductory knowledge of the topics.

### Level 300

#### Advanced

Sessions dive deeper into the selected topic. Presenters assume that the audience has some familiarity with the topic, but may or may not have direct experience implementing a similar solution.

### Level 400

#### Expert

Sessions are for attendees who are deeply familiar with the topic, have implemented a solution on their own already, and are comfortable with how the technology works across multiple services, architectures, and implementations
