

# AWS investment in the UAE

Amazon Web Services (AWS) has launched the new AWS Middle East (UAE) Region. The impact of the existing and future AWS investments in the UAE and the estimated benefits over the next 15 years are:

## AED 20 billion

Total to be invested for the new AWS Middle East (UAE) Region

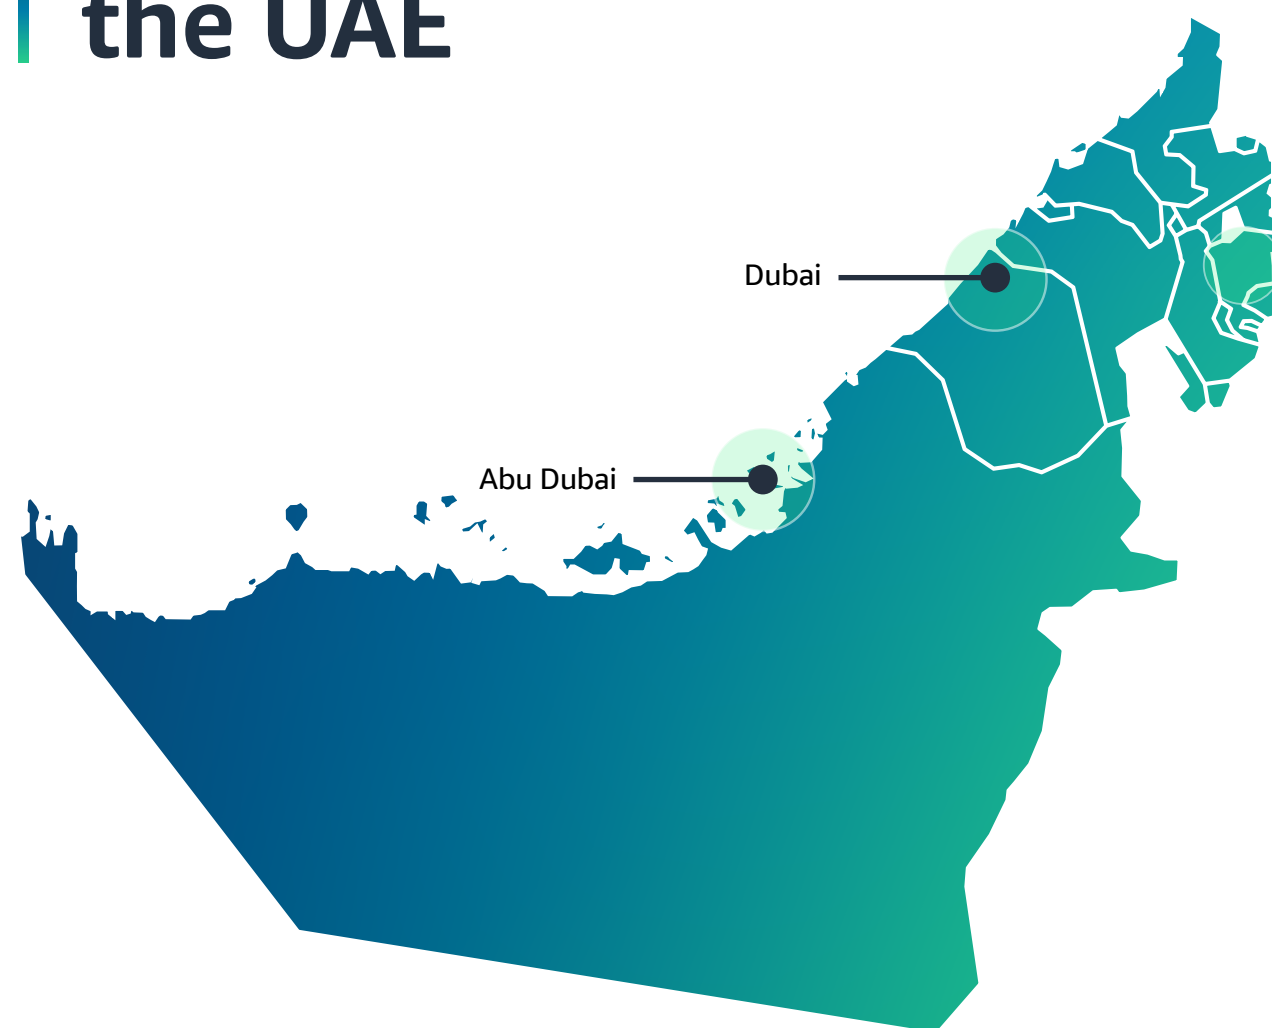

## AED 41 billion

Estimated increase in Gross Domestic Product (GDP) from the construction and operation of the AWS Middle East (UAE) Region

## 6,000

Estimated average annual full-time jobs supported by the AWS Middle East (UAE) Region

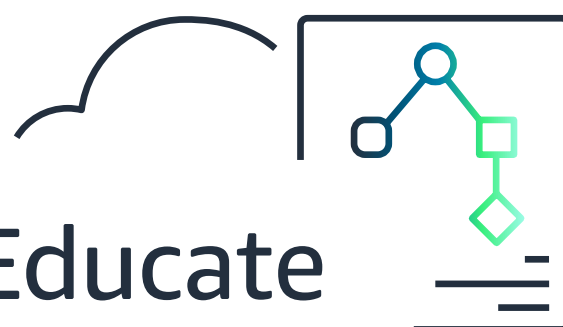

## AWS in the UAE

## AWS skills development in the UAE

Over 500 free digital courses, interactive labs, and virtual day-long training sessions to drive economic growth and job creation.

### AWS Educate

UAE students as young as 13 have free access to hundreds of hours of training and resources curated specifically for new-to-the-cloud learners.

## Up to \$100,000 in AWS Activate credits

Available to UAE startups, along with access to the right mix of tools, resources, and expert support to succeed with AWS while optimizing performance, managing risk, and keeping costs under control.

### UAE SMEs

AWS will provide subsidized classroom-based cloud computing AWS training sessions for thousands of IT professionals employed with any of the 400,000 small and medium enterprises (SMEs) registered with the UAE SME Council.

AWS and the **Abu Dhabi Investment Office (ADIO)** are collaborating with local intermediaries and AWS training partners to provide small and medium enterprises (SMEs) with subsidized access to a customized cloud training program.
