	Opening Keynote (50 mins)						
	繁體中文 - 國語場	**Innovation at Amazon**	**AI/ML Fundamentals**	**Build, Train, and Deploy ML models**	**AI Services and Applications**	**AI/ML Services and Devices**	**AI/ML Experiential Showcase**
30 mins	議程即將公佈	Create tomorrow with data and machine learning (Level 100)	Getting started with machine learning and improve productivity in a fully integrated development environment (Level 100)	Automate machine learning life cycle and get your ML models to production faster (Level 300)	Build high quality fraud detection ML models and detect fraud online rapidly (Level 200)	Train, evaluate, and tune your reinforcement learning model with AWS DeepRacer (Level 300)	
30 mins	議程即將公佈		An overview of Amazon SageMaker security (Level 100)		Speed up and simplify time-series forecasting and real-time personalization to solve complex business challenges (Level 200)		
10 mins	**中場休息**						1. DeepRacer Zone 2. Builders' Zone 3. Hands-on Labs 4. Customers' Experiential Arena 5. Ask the Experts
30 mins	議程即將公佈	**Accelerate Your ML Journey** Accelerating machine learning: Your role in the journey (Level 100)	Accelerate machine learning projects with AWS Marketplace (Level 200)	Automatically build ML models with accurate training datasets and implement human review in ML predictions (Level 300)	Amazon Kendra: Reinventing enterprise search and interaction with data using AI (Level 300)	Automate code reviews and application performance recommendations with Amazon CodeGuru (Level 400)	
30 mins			Engaging audiences using machine learning in media (Level 200)	ML model deployment techniques using Amazon SageMaker Managed Deployment, Amazon Elastic Inference, Amazon Neo, and AWS Inferentia (Level 300)	Breaking language barriers with AI (Level 300)	Customize image and video analysis with AI and machine learning (Level 200)	
30 mins	議程即將公佈	Learn machine learning like an Amazonian (Level 100)	ML workflows with Kubernetes and Amazon SageMaker (Level 200)	Accelerate building of deep learning applications (Level 400)	Power cloud contact center with analytics using machine learning (Level 300)	Get started with generative AI with AWS DeepComposer (Level 300)	
30 mins	**Closing Remarks**						

* Agenda subject to change
