

Attendee Guide for Business Leaders

Welcome!

On behalf of AWS, we are excited for you to join us at the AWS Summit Toronto on June 14 at the Metro Toronto Convention Centre – South Building! This year's conference offers over 70 sessions to help you deepen your cloud knowledge and gain skills to design and deploy solutions in the cloud at scale.

Whether you are just getting started with the cloud or you are an advanced user, join us to network with technologists, AWS partners, and peers to get inspired and build.

REGISTER NOW

Event overview

AWS Summits are comprehensive cloud technology events hosted by AWS. They are a free opportunity to learn about AWS, network with peers, and sharpen your skills. Our vibrant, inspiring cloud community can't wait to meet you.

What to expect

Come grow your existing cloud skills and learn how to build, deploy, and operate your infrastructure and applications.

Who should attend

All levels of cloud expertise are welcome. Whether you're just getting started or you're an experienced cloud user, you'll learn key concepts that can be applied right away in your organization.

Agenda overview

Join the keynote, visit the Expo, and choose from over 70 breakout and interactive sessions. Come to connect, collaborate, and dive deep into cloud computing technology.

June 13

Early badge pick up: 7:30am – 6:00pm ET

June 14

Registration & Expo open: 8:00am – 6:00pm ET

Keynote: 11:00am – 12:00pm ET

Sessions: 9:00am – 5:15pm ET

Networking reception: 5:00pm – 6:00pm ET

Keynote

Wayne Duso
VP of Storage, Hybrid-Edge, and Data Services

Join Wayne Duso, VP of Storage, Hybrid-Edge, and Data Services of Amazon Web Services, as he delves into the innovative ways companies are leveraging the power of AWS to revolutionize industries. Discover the latest advancements in infrastructure and data that will help you improve performance, optimize your IT spending, and achieve your goals faster. Whether you're an established enterprise or a fast-growing startup, this keynote will provide valuable insights into technologies such as machine learning and serverless computing, offering a comprehensive look at how AWS can help you stay ahead of the curve.

Featured speakers

Bob Blaney
RBC Fellow, Head of AI/ML
Royal Bank of Canada

Dave Yi Mun
SVP, Data and Analytics
Royal Bank of Canada

Neelam Sandhu
SVP, Sustainability & Chief
Elite Customer Success
Officer
BlackBerry Limited

Breakout content

Covering 25 different topics across 70 sessions, AWS Summit Toronto is your opportunity to catch up on the latest technologies in cloud computing. Choose the learning methods that work best for you, from interactive chalk talks to lecture-style breakouts.

Sessions are available from foundational (100) through expert (400) levels. You can grow your skills no matter where you are in your knowledge or career. Browse the session catalog for an in-depth view of everything offered.

[SESSION CATALOG](#)

Session types

BREAKOUT SESSIONS

60-minute lecture-style presentations covering a broad range of topics for various skill levels delivered by AWS experts, builders, customers, sponsors, and partners. Breakout sessions typically include a Q&A session at the end of the presentation. Please note: no Q&A for silent sessions.

CUSTOMER LIGHTNING TALKS

30-minute presentations where attendees hear directly from AWS customers about their cloud journeys. Attendees can discover how customers are innovating, expediting, and scaling real-world solutions.

CHALK TALKS

60-minute highly interactive experiences intended to foster a technical discussion about real-world architecture challenges. Chalk talks begin with a short lecture delivered by an AWS expert, followed by whiteboarding and a Q&A session.

Session types

WORKSHOPS

120-minute interactive sessions where attendees work in small groups to build a solution to a problem using AWS products and services. Each workshop starts with a short lecture by the speaker, and there are additional AWS experts in the room to make sure every group gets the assistance they need. Attendees must bring their laptops to participate.

LABS

60-minute hands-on learning experiences designed to use the AWS Labs platform and lab experience products for self-paced digital training and instructor-led training.

DEEPRACER WORKSHOP

90-minute interactive sessions using AWS DeepRacer to learn the basics of reinforcement learning (an advanced machine learning technique). Attendees must bring their laptops to participate.

Session recommendations

With over 25 topics and 70 sessions, it can be tough to decide what to attend. To help, we've curated recommendations specifically for Business Leaders.

Stay up to date with emerging trends and best practices while gaining insights from customers.

AIM201

Revolutionizing peer-to-peer lending with Lenme and AWS

Mark Maurice, Lenme

ENT201

Strategies for navigating multicloud decisions and difficulties

Tom Godden, AWS

COP202-FM

Demystifying the AWS CAF and cloud operating model

Ahmad Muammer, AWS
Charlotte Wang, AWS

FSI101-FM

Modernizing your contact center to grow your business

Shalesa Charron, AWS
Shaughn McCluskey, AWS

Session recommendations

INO101

Amazon's culture of innovation

Debashree Dasgupta, AWS

INO105-FM

Transform your business with generative AI on AWS

Girish Arunagiri, AWS
Nashlie Sephus, AWS
Ritesh Vajariya, AWS

INO201

Learning from Amazon: Supply chain and logistics

Sanjeev Maddila, AWS

NIS101-FM

Elevating the cybersecurity conversation

Bill Ohlson, AWS
Naranjan Goklani, AWS

SMB101-FM

Transforming SMBs with AWS: Lessons learned from real-world experience

John Arnold, PayFacto
Vahram Sukyas, VIQ Solutions

SMB103-FM

Scalability, savings & speed: The AWS advantage for businesses in 2023

Ben Schreiner, AWS
Frank Ferlaino, Edsembli

Expo sessions

DEV CHATS

30-minute community-led sessions where attendees hear directly from AWS customers and AWS Heroes about how they are innovating, expediting, and scaling real-world solutions.

LIGHTNING TALKS

30-minute sponsor-led presentations that are dedicated to a specific customer story, service demonstration, or AWS Partner offering.

Expo activities

AWS TRAINING AND CERTIFICATION HUB

Learn from AWS experts about how AWS Training and Certification can help you gain practical experience with real-world cloud scenarios, validate your cloud expertise, and much more.

AWS STARTUP LOFT

Build. Launch. Scale. The AWS Startup Loft offers founders assistance from inception to IPO. Visit to connect with peers and receive technical help from AWS experts.

AWS COMMUNITY DEVELOPER LOUNGE

The AWS Community Developer Lounge (Dev Lounge) is a space for you to receive resources from AWS customers. Meet local AWS Meetup leaders, listen to community-led technical talks, and learn how to level up your career with AWS.
