

08:00AM PT 11:00AM ET	Keynote: Accelerating Application Modernization: Best Practices and Lessons Learned Banjot Chanana, Director Containers & Serverless GTM, AWS and Mark Apgar, Director Architecture at Fidelity Investments			
Breakout Session Times	Track 1: Build New with Serverless Technologies and Tools	Track 2: Move to Managed Containers Architecture	Track 3: Transform to a Modern Dev+Ops Model	Track 4: Innovate with Modern Apps
08:30AM PT 11:30AM ET	Getting Started with Serverless applications (L200) Talia Nassi, Senior Developer Advocate - Serverless, AWS	Containers and AWS Lambda: choosing the optimal compute for your modern application (L200) Farrah Campbell, Sr. Product Marketing Manager - Containers & Serverless, AWS	Modern Apps need Modern Ops (L200) Pratul Chakre, Worldwide Specialist - Cloud Management Services, AWS	Securing modern application data with layered security services (L300) Himanshu Verma, Worldwide Security Specialist, AWS
09:00AM PT 12:00PM ET	Serverless Security Best Practices (L200) Justin Pirtle, Principal Solutions Architect, AWS	AWS AppRunner: Deploy and run your web applications in minutes (L200) Archana Srikanta, Principal Engineer, AWS	Rethinking the Software Development Lifecycle (L200) Emily Freeman, Principal - DevOps Solutions, AWS	Modernize Existing .NET Apps with AWS (L200) Thorr Giddings, Manager .NET Developer Advocacy AML SA, AWS
09:30AM PT 12:30PM ET	Building CI/CD Workflows for Serverless Applications (L300) Eric Johnson, Principal Developer Advocate - Serverless, AWS	Amazon EKS: Roadmap and recent updates (L300) Jeremy Cowan, Principal Developer Advocate, AWS	Managing cloud infrastructure consistently with AWS Cloud Control API (L200) Rahul Sharma, Senior Product Manager, AWS	Build modern applications with purpose-built databases (L200) Justin Thomas, Principal Neptune Specialist, AWS
10:00AM PT/01:00PM ET	15 MIN. BREAK			
10:15AM PT 01:15PM ET	[Partner Session] Building an at-scale Business Case for Modernization (L200) Gary Arora, Consulting Lead, Deloitte	AWS Copilot: Under the hood (L200) Adam Keller, Senior Developer Advocate, AWS	Continuous compliance and security for DevOps (L200) Srinivas Manepalli, DevSecOps Solutions Architect - Fed SI SA, AWS	Improve application networking performance to deliver modern applications globally (L200) Shakeel Ahmad Sr. Solutions Architect - Networking/Hybrid, AWS
10:45AM PT 01:45PM ET	Building scalable, serverless event-driven architectures (L300) Sam Dengler Principal Solutions Architect - Serverless, AWS	Build, operate, and observe a containerized application on AWS Fargate (L200) Nathan Peck, Senior Developer Advocate, AWS	Managing infrastructure as code with GitOps (L300) Curtis Rissi, Principal Solutions Architect - App Modernization, AWS	Machine Learning Inference with AWS Lambda and Amazon EFS (L300) Ananth Vaidyanathan, Senior Product Manager, AWS
11:15AM PT 02:15PM ET	Backend development in clicks with the AWS Amplify Admin UI (L300) Ali Spittel, Senior Developer Advocate - Amplify, AWS	Modernize Your Content Management Systems with Amazon EFS (L200) Quinn Summers, Product Manager - EFS, AWS	Incorporating continuous resiliency in your development ecosystem (L300) Lee Fox, Partner Solutions Architect, AWS	
11:45AM PT/02:45PM ET	15 MIN. BREAK			
12:00PM PT 03:00PM ET	Build serverless real-time web and mobile applications with GraphQL APIs and AWS AppSync (L200) Stefano Sandrini, Specialist Solutions Architect - Mobile, AWS	Embracing Evolution: GitOps Adoption and Maturity Model (L300) Jesse Butler, Developer Advocate - Kubernetes, AWS		
12:30PM PT 03:30PM ET	Closing session: Application Integration Patterns for Microservices (L300) Dirk Fröhener, Principal Solutions Architect, AWS
