

What You Need to Know About GDPR

The General Data Protection Regulation (GDPR) not only applies to organizations located within the European Union (EU), but also to organizations located outside of the EU if they offer goods or services to, or monitor the behavior of, EU data subjects. It applies to all companies processing and holding the personal data of data subjects residing in the EU, regardless of the company's location.

About GDPR

MAY 25, 2018:

The **General Data Protection Regulation (GDPR)** becomes enforceable

PENALTIES FOR NON-COMPLIANCE:

As high as **4% of annual global turnover** for breaching GDPR or €20 million—whichever is larger

DEFINITION OF PERSONAL DATA:

It can be anything, including:

Name

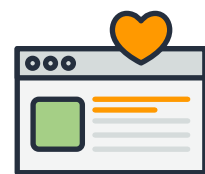

Photo

Email address

Bank details

Posts on social networking websites

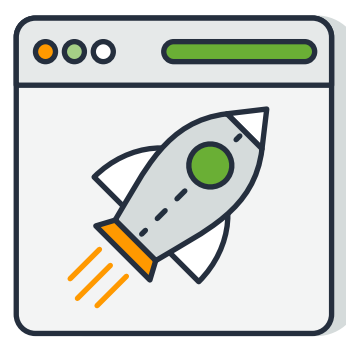

Medical information

Computer IP address

About Amazon Web Services (AWS)

100% of AWS services are GDPR-ready as of May 25, 2018

We demonstrate compliance with international standards such as:

ISO 27017
for cloud security

ISO 27018
for cloud privacy

PCI DSS Level 1
for credit card transactions

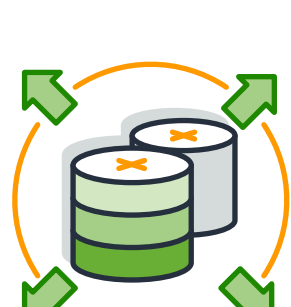

Your Environment on AWS

Amazon Web Services (AWS) protects millions of active customers around the world. Security at AWS is our top priority. That is why we listen closely to our customers to offer both a secure cloud computing environment and innovative security services that satisfy the security and compliance needs of the most risk-sensitive organizations.
