

## DAY 1 | TUESDAY, 18 MAY 2021

10:00AM TO 11:30AM [GMT +5:30]	OPENING KEYNOTE						
TRACK	AI/ML	BIG DATA & ANALYTICS	MODERNIZATION & INNOVATION	APPLICATION & MODERNIZATION	DATABASE	DEVOPS	SECURITY
11:30AM to 12:00PM [GMT +5:30]	Maximizing your addressable market with AI/ML on AWS [Level 200]	An introduction to analytics on AWS [Level 100]	Enterprise migration to AWS [Level 100]	Modernize your applications by leveraging AWS containers and serverless services [Level 200]	Application modernization with AWS purpose-built databases [Level 100]	Choosing the right modern deployment strategy [Level 300]	How are we evolving security [Level 200]
12:00PM TO 12:30PM [GMT +5:30]	Powering better price-performance for your AI on AWS EC2 Instances and Intel [Intel]	Using Data Cloud to power real-time decisions [Snowflake]	5 ways to speed Dev and deploy on AWS [Red Hat]	How to achieve operational excellence in the Cloud [New Relic]	Harness the power of real time analytics with Data virtualization on AWS [Denodo]	Influencing DevOps without Authority: How "DevOps engineer" can advance real DevOps [Jfrog]	Mistakes were made, lessons were learnt [Trend Micro]
12:30PM TO 13:00PM [GMT +5:30]	Enhancing visibility into your organization's knowledge base to increase employee productivity [Level 200]	What's new with Amazon Redshift? [Level 200]	Build a business case for cloud-based transformation [Level 200]	Running your applications on Kubernetes across boundaries using Amazon EKS [Level 400]	Edge over relational: An introduction to graph databases and Amazon Neptune [Level 100]	Building a GitOps pipeline with Amazon EKS [Level 200]	Regulation, compliance & audit [Level 200]
13:00PM TO 13:30PM [GMT +5:30]	PARTNER LIVE DEMOS						
13:30PM TO 14:00PM [GMT +5:30]	Transform your contact center from a cost center into a profit center [Level 200]	Run big data analytics faster at lower cost with Amazon EMR [Level 200]	Build your cloud migration roadmap on AWS [Level 200]	Serverless architectural patterns and best practices in modern application development [Level 200]	Introduction to Amazon NoSQL managed databases [Level 100]	Learn about AWS Proton: Automated management for container and serverless deployments [Level 200]	Ten easy and effective ways to secure your AWS environment [Level 200]
14:00PM TO 14:30PM [GMT +5:30]	Intelligent document processing: Enhance speed and efficiency by tapping into ML [Level 200]	MakeMyTrip: Leveraging Amazon Athena Federated Query to break data silos [Level 300]	Setting up for success on the cloud (people, processes, and tools) [Level 200]	Using service meshes in your application modernization journey [Level 200]	Design for success with Amazon ElastiCache best practices [Level 200]	Monitoring deployment pipelines and application health using AWS Observability services [Level 300]	Security automation [Level 200]
14:30PM TO 15:00PM [GMT +5:30]	Dramatically reduce time and cost of analyzing rich media assets [Level 200]	BigBasket: From clicks to insights [Level 200]	Getting started with migrating to AWS [Level 300]	Choose the right messaging service using proven integration patterns for modern applications [Level 300]	Beyond AWS Database Migration Service: Programs and partners to ace your migration [Level 100]	AWS Fault Injection Simulator: Fully managed chaos engineering service [Level 200]	Next generation SOC [Level 200]
15:00PM TO 15:30PM [GMT +5:30]	Proactively detect anomalies in operational and business data to reduce investigation time [Level 200]	Amplifying analytics for SAP [Level 200]	Running Microsoft workloads on AWS [Level 200]	Security best practices for modern applications running on containers [Level 200]	Building serverless applications on AWS: The serverless LAMP stack [Level 300]	Automate anything with AWS Systems Manager [Level 200]	Web Application Firewall & managed DDoS [Level 200]

## DAY 2 | WEDNESDAY, 19 MAY 2021

10:00AM TO 11:30AM [GMT +5:30]	TECHNICAL OPENING KEYNOTE							
TRACK	AI/ML	BIG DATA & ANALYTICS	MODERNIZATION & INNOVATION	FINANCIAL SERVICES	INTERNET OF THINGS	DEVELOPER ACCELERATION	DIGITAL INDIA	MODERN DIGITAL WORKPLACE
11:30AM to 12:00PM [GMT +5:30]	Solving business problems with AI/ML [Level 200]	Harnessing the power of data: Path to Success [Level 100]	Modernising and innovating on AWS [Level 200]	Financial Services – Navigating change while facing forward [Level 200]	Connect today, transform tomorrow with AWS IoT [Level 100]	Introducing AWS DevAX: Working together to build tomorrow [Level 100]	Operating the largest stock broking platform of India to serve a million plus customers [Level 200]	Reimagine the digital workplace using AWS [Level 100]
12:00PM TO 12:30PM [GMT +5:30]	Benchmark your cloud maturity: A best practices framework [VMWare]	End-to-end Visibility in the Cloud with Open Telemetry [Splunk]	Sponsor led session	Fly high in 2021 - Simplify Hybrid Cloud adoption [Cloud4C]	Adding customer identity and access management from Auth0 to your AWS hosted application [Auth0]	Can cloud observability be career- and (potentially) life-changing? [Dynatrace]	Session sponsored by DELL	Session sponsored by IBM
12:30PM TO 13:00PM [GMT +5:30]	Amazon SageMaker deep dive: First fully integrated development environment for machine learning [Level 300]	Delhivery: Data Mesh implementation ingesting terabytes of data [Level 300]	Building hybrid cloud on AWS [Level 200]	Reimagining the customer experience leveraging better insights with AI/ML [Level 300]	Connected Operations/Smart Factory: Enabling operational excellence with AWS IoT [Level 200]	Accelerate modern serverless application development with AWS Amplify [Level 200]	Enabling efficient and responsive healthcare for all [Level 100]	Move your desktops and applications to AWS with end-user computing [Level 200]
13:00PM TO 13:30PM [GMT +5:30]	PARTNER LIVE DEMOS							
13:30PM TO 14:00PM [GMT +5:30]	Building an automated eKYC with Amazon SageMaker and Amazon Rekognition [Level 300]	BI at hyperscale: Quickly build and scale dashboards with Amazon QuickSight [Level 300]	Transforming your business, with SAP on AWS [Level 200]	It's time for modernizing your core systems: Are you ready? [Level 300]	Deliver innovative customer experiences and explore new revenue streams with connected things [Level 200]	Coordinating distributed services using AWS Step function [Level 300]	Accelerating uninterrupted education at the last mile [Level 200]	Building an immersive Chat experience with Amazon Connect Chat [Level 300]
14:00PM TO 14:30PM [GMT +5:30]	Deep learning inference on AWS: Choosing the right type of hardware [Level 300]	Amazon managed streaming for Kafka [Level 300]	Degrees of modernization [Level 300]	Fortifying your enterprise and ensuring regulatory compliance: Welcome to the AWS cloud [Level 200]	Build low-latency applications with AWS IoT Edge services [Level 200]	Monolith to microservices with containers: Developer's log [Level 200]	Transforming Indian agriculture to become smarter, inclusive and more resilient [Level 200]	Transform your digital user engagement with Amazon Pinpoint [Level 300]
14:30PM TO 15:00PM [GMT +5:30]	Machine learning for intelligent services in edge devices [Level 300]	Leveraging Spot instances to optimize cost for large scale Amazon EMR clusters [Level 200]	Modernize your data warehouse [Level 300]	Fireside Chat: Driving enterprise transformation: Mechanisms and learnings [Level 200]	Building intelligent security and monitoring solutions for enterprises and smart homes [Level 200]	AWS CDK: Develop, customize and share reusable construct for AWS infrastructure [Level 300]	Building a social media UGC app serving user content requirements to India [Level 300]	Create highly interactive experiences with Amazon Chime [Level 200]
15:00PM TO 15:30PM [GMT +5:30]	Make your models go the extra mile: Tips and tricks [Level 300]	Re-thinking analytics architectures in the cloud [Level 200]	Pulling it all together: Leveraging cloud to drive business transformation [Level 200]	How Fintechs are changing the banking experience [Level 200]	Busting the myths with AWS IoT: Idea to Launch, with effective prototyping, in less than 6 weeks [Level 300]	Supercharge your development workflow with AWS developer tools [Level 200]	Blackbuck: Enabling logistics amidst coronavirus pandemic through 'move India' initiative [Level 200]	AI driven employee identity verification [Level 300]

### Level 100

#### Introductory

Sessions are focused on providing an overview of AWS services and features, with the assumption that attendees are new to the topic.

### Level 200

#### Intermediate

Sessions are focused on providing best practices, details of service features and demos with the assumption that attendees have introductory knowledge of the topics.

### Level 300

#### Advanced

Sessions dive deeper into the selected topic. Presenters assume that the audience has some familiarity with the topic, but may or may not have direct experience implementing a similar solution.

### Level 400

#### Expert

Sessions are for attendees who are deeply familiar with the topic, have implemented a solution on their own already, and are comfortable with how the technology works across multiple services, architectures, and implementations
