

PARTNER TRAINING AND CERTIFICATION

Build your cloud migration skills with training from the experts at AWS

Migration training from AWS can help you stay ahead in the ever-evolving digital landscape

There has never been more demand for skilled professionals who can help organizations navigate their migration to the cloud. Make sure you and your team have the confidence, credibility, and technical skills to serve your customers and grow your migration business with courses designed by Amazon Web Services (AWS) experts to level up your skills. AWS Training and Certification helps AWS Partners build and validate their organization's AWS Cloud migration skills so your team can efficiently move through every phase of migration, from strategic planning to modernization.

Training for every phase of migration

Assess and build a business case for migration

Discover your customer's current readiness for operating in the cloud, identify the desired business outcomes, and develop the business case for migration.

Enhanced migration planning and fundamentals

Mobilize to create a migration plan, refine the business case, and address any gaps your customer may have.

Deliver value through advanced skills

Migration training to help customers optimize cost, modernize legacy applications and data, and reduce operational burden.

Leverage exclusive, flexible AWS Partner training

AWS Training and Certification gives you the flexibility to learn how, when, and where you want with curriculums developed by AWS experts.

Study at your own pace with on-demand digital courses or choose instructor-led classroom courses, available virtually or in-person, where you can learn and deepen your knowledge with direct feedback from an AWS-accredited instructor.

What kind of training is available to me as an AWS Partner?

On-demand training courses
