

ICT	THURSDAY, MAY 30, 2024   QUEEN SIRIKIT NATIONAL CONVENTION CENTRE			
8:30 - 9:30	Registration & Solutions Expo Showcase			
9:30 - 10:45	Welcome Remarks			
	Opening Keynote			
10:45 - 11:30	Morning Break & Solutions Expo Showcase			
	<b>Track 1</b> Reimagining Industries with AWS	<b>Track 2</b> Modernise your workload	<b>Track 3</b> The future is now with data and generative AI	<b>Track 4</b> AWS for Developers
11:30 - 12:00	Digital Technology Innovation in Retail and CPG	Harness the power of AWS to build game-changing applications	Build a data foundation to fuel generative AI	Supercharge your development with AWS generative AI developer tools
12:00 - 12:30	Harnessing the power of generative AI to boost productivity across your organisation	Navigating cloud security in the digital era	Build generative AI-powered apps with MongoDB Atlas on AWS	Better reliability with SLOs
	DailiTech	Palo Alto Networks	MongoDB	Datadog
12:30 - 13:30	Lunch Break & Solutions Expo Showcase			
13:30 - 14:00	Data-driven retail search by 7-Delivery	Resilience redefined: Building multi-region architectures on AWS	Reinventing with generative AI on AWS	Best practices for Amazon CodeWhisperer
14:00 - 14:30	Improving patient outcomes using generative AI in healthcare	Strengthen your security posture with AWS	AWS vector database capabilities best practices	Customising generative AI applications for your business using your own data
14:30 - 15:00	Bangkok Bank: Adopting observability for digital channels	CrowdStrike 2024 Global Threat Report	Building real-time next generation AI applications with Confluent on AWS	Set your AI strategy up for success with a solid data foundation
	New Relic	CrowdStrike	Confluent	Snowflake
15:00 - 15:30	Unleashing possibilities: Empowering innovation and transformation	Enhance your applications security and availability with Elastic Load Balancing	Generative BI in Amazon QuickSight	New era of IaC: Effective Kubernetes management with cdk8s
15:30 - 16:00	Afternoon Break & Solutions Expo Showcase			
16:00 - 16:30	How to deliver business value in financial services with generative AI	Migrating to AWS Graviton with AWS container services	Smarter, faster analytics with generative AI & ML	A developer's guide to cloud networking
16:30 - 17:00	Transformation everywhere in Financial Services	Developing serverless solutions	Best practices for analytics and generative AI on AWS	AI for DevOps: Modernising your DevOps operations with AWS
17:00 - Close	Solutions Showcase Expo & Networking
